The City of Fort Worth is constructing a new family aquatic center to replace the 86-year old swimming pool at Marine Park, including a 13-foot deck, a lap pool, a zero entry pool for children and a Spanish Colonial style bathhouse designed to be compatible with the homes and buildings found in the Historic Northside.

Professional Fort Worth-based artists are being invited to develop design proposals for a tile mural to be permanently installed on the bathhouse façade. As part of their design process, artists will want to learn as much as they can about the community and its character in a short period of time.

Your feedback will help the artists develop design proposals that resonate with those who will see the mural and use the aquatic center.

Please complete the survey by November 13, 2012 and return to: Fort Worth Public Art, ATTN: Michelle Gonzales 1300 Gendy Street, Fort Worth, TX 76107 or you can complete the survey on-line: http://www.surveymonkey.com/s/GWTLFXN

1. What do you want artists to know about your neighborhood that makes it unique from other areas in Fort Worth?
